Your Prescription Drug List Serve You Rx Standard Formulary

Please read: This document contains information about the drugs covered under your pharmacy benefit plan.

If you have questions:

- Call customer service at **800-759-3203**.
- Visit **ServeYouRx.com**
 - Locate a participating retail pharmacy by ZIP code
 - Perform drug cost comparisons
 - Search the drug database for generics, brand-names, generic equivalents and other drug information
 - View quality and safety information about prescription alternatives about prescription alternatives

Your Prescription Drug List (PDL)

The Prescription Drug List, or formulary, is a listing of the most commonly prescribed medications sorted by therapeutic category. The PDL identifies the drugs available for certain conditions and organizes them into cost levels, also known as tiers. It is intended to be used as a guide to help you and your doctor choose the best course of treatment for you. Drug designation by category is for reference only and not clinical comparison. The PDL is not intended to be a substitute for the clinical knowledge and judgement of the medical practitioner in their choice of drug therapy. In all cases, the prescriber is expected to select appropriate drug therapy for the individual patient and provide high-quality healthcare.

Please note

- Where differences are noted between this PDL and your benefit plan documents, the benefit plan documents will rule.
- This document is not intended to be a complete list of medications, and not all medications listed may be covered under your plan. Please look at your benefit plan documents provided by your employer or plan sponsor to see what medications are covered under your plan.
- You may also log on to [ServeYouRx.com](https://www.ServeYouRx.com) or call customer service at **800-759-3203** for more information.

At Serve You Rx, we are committed to helping you better understand your medication options.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the PDL.

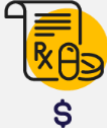

HOW DO I USE MY PRESCRIPTION DRUG LIST?

Bring this PDL with you when you see your doctor. You and your doctor should consult it when choosing a medication. It is organized by common medical conditions. Medications are then listed alphabetically and identified as generic or brand, and if special rules apply. If your medication is not listed in this document, please visit [ServeYouRx.com](https://www.ServeYouRx.com) or call customer service at **800-759-3203**.

WHAT ARE TIERS?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or plan sponsor. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3, look to see if there is a Tier 1 option available. Discuss these options with your doctor.

Check your benefit plan documents to find out your specific pharmacy plan costs.

\$	DRUG TIER	INCLUDES	HELPFUL TIPS
	Tier 1 Lowest Cost	Lower-cost, commonly used generic drugs	Use Tier 1 drugs for the lowest out-of-pocket costs.
	Tier 2 Mid-Range Cost	Many common brand-name drugs, called preferred brands	Use Tier 2 drugs, instead of Tier 3, to help reduce your out-of-pocket costs.
	Tier 3 Highest Cost	Mostly higher-cost brand drugs, also known as non-preferred brands	Many Tier 3 drugs have lower-cost options in Tier 1 or 2. Ask your doctor if they could work for you.

Please Note

Plans may have different tiers (4, none, etc.). If your plan has a Tier 4, specialty drugs are included in this tier. If you have a high deductible plan, the tier cost levels may apply once you hit your deductible. Refer to your enrollment and plan documents or call customer service at **800-759-3203** for more information about your benefit plan.

WHEN DOES THE PRESCRIPTION DRUG LIST CHANGE?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when its generic becomes available.
- Medications may move to a higher tier or be excluded from coverage on January 1 or July 1 of each year.

When a medication changes tiers, you may have to pay a different amount for that medication.

PROGRAMS AND LIMITS

Some medications are noted with letters or symbols next to them. The letters and symbols refer to pharmacy benefit programs and are provided to help you check which medications may have a program or limit. Your benefit plan determines how these medications may be covered for you.

<p>PA</p>	<p>Prior Authorization — Your doctor is required to provide additional information to determine coverage.</p>
<p>ST</p>	<p>Step Therapy — Trial of lower cost medication(s) is required before a higher cost medication is covered, based on continually updated, evidenced-based research and widely accepted medical practices.</p>
<p>QL</p>	<p>Quantity Limits — Amount of medication covered per copayment or in a specific time period. For selected medications, may include conversion from twice-daily dosing to one-time-daily dosing.</p>
<p>SP</p>	<p>Specialty Medication — Medication is designated as a specialty pharmacy drug.</p>
<p>E</p>	<p>Excluded — May be excluded from coverage or subject to prior authorization. Lower-cost options are available and covered. Authorized Brand Alternatives (ABAs) are excluded.</p>

WHAT IS THE DIFFERENCE BETWEEN BRAND-NAME AND GENERIC MEDICATIONS?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes the same company that makes a brand-name medication also makes the generic version.

IS IT A GENERIC OR BRAND-NAME DRUG?

The drug list shows **brand-name** drugs in **bold** type (for example, **Crestor**) and generic drugs in plain type (for example, rosuvastatin).

WHAT IF MY DOCTOR WRITES A BRAND-NAME PRESCRIPTION?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Visit the drug cost comparison tool in the Member Portal at [ServeYouRx.com](https://www.ServeYouRx.com) to be sure.

ARE YOU TAKING A SPECIALTY MEDICATION?

Specialty medications treat rare or complex conditions and are typically higher cost medications. Specialty drugs have the following characteristics:

- Treat complex and often costly medical conditions such as: cancer, rheumatoid arthritis, multiple sclerosis, hepatitis C, and pulmonary hypertension
- Are often injected or infused (IV) medicines, but may also be taken orally
- Require close monitoring of response to drug therapy
- May require individualized dosing, medical devices to administer the medicine, and/or special handling and delivery
- Require additional education for safe and cost-effective use

Please Note

Not all specialty medications are listed in the PDL.

Serve You Rx Specialty Pharmacy stocks most specialty medications and is committed to helping patients navigate the complexity of specialty drug therapy with helpful programs, services, and enhanced patient care. Call customer service at **800-759-3203** and have your prescriptions delivered right to your home or office.

SHOULD I TALK TO MY DOCTOR ABOUT OTC MEDICATIONS?

An over-the-counter (OTC, no prescription required) medication may be the right treatment option for some conditions. Talk to your doctor about available OTC options. Even though these medications may not be covered under your pharmacy benefit, they may cost less than your out-of-pocket expense for prescription medications.

HOW DO I GET UPDATED INFORMATION ABOUT MY PHARMACY BENEFIT?

Since the PDL may change during your plan year, we encourage you to visit [ServeYouRx.com](https://www.ServeYouRx.com) or call customer service at **800-759-3203** for more current information.

When you register at [ServeYouRx.com](https://www.ServeYouRx.com), you can use the website's helpful tools and features to:

- Perform drug cost comparisons;
- Learn how to use mail service for home delivery of your medications;
- View your medication history;
- Locate in-plan, out-of-plan, and 24-hour pharmacies near you;
- Refill your prescriptions;
- Search the drug database for generics, brand-names, generic equivalents, and other drug information;
- View quality and safety information about prescription alternatives; and
- View any plan-specific content.

If you need more information...

“My Medications” worksheet

Take this worksheet with you each time you visit a doctor. Each of your doctors should be aware of every drug you take and you should have a list as well.

NAME OF MEDICINE AND STRENGTH	DRUG TIER	I TAKE THIS MEDICINE FOR	DIRECTIONS	DOCTOR
Example: Lisinopril, 20 mg	Tier 1	High blood pressure	One tablet daily	Dr. Johnson
