

## TPA Integrations

January 9, 2024

We can work with most TPAs. Our team is highly experienced in adapting standardized NDPDP file formats to the needs of our TPA partners. Additionally:

- We will build automated file exchanges at no additional charge.
- We are ready and willing to establish connectivity in advance of submitting our first new business proposal, for the sake of expeditious implementation should we be awarded new business.
- We welcome broker support and input to the degree they wish to be involved, as details are finalized on file format, accumulators, and file feeds.

**Below are some of the TPAs with which we currently have feeds set up:**

- 90 Degree Benefits
- Access to Care
- Accordware
- Aetna
- Allied Benefit Administrators
