

Preventive Drug List

July 2026

By offering the Serve You Rx Preventive Rx Program, your plan is being proactive in reducing your total healthcare costs by helping you stay healthy and productive. The following list contains the most commonly prescribed preventive medications. Taking preventive medications as directed by your doctor can help avoid many types of illnesses and complications from illnesses; which may mean fewer doctor visits and hospitalizations, reducing your total healthcare costs.

Please note:

- Coverage may vary but includes Tier 1 generics and Tier 2 preferred brand drugs in most cases.
- Coverage of preventive medications does not apply to brands where an equivalent generic is available.
- This list is intended as a reference only and may not be all-inclusive due to new generic drug introductions, drug availability, or other changes in the market.
- Selected drugs on this list may be excluded under your specific plan design and/or may be subject to quantity limitations, step therapy, or prior authorization depending on plan benefit design. Please refer to your plan formulary.
- Depending on your plan benefit design, additional preventive medications that are not listed here may be covered under the Affordable Care Act.
- Listings are subject to change.

Generic drugs begin with a lowercase letter. Brand drugs begin with an uppercase letter.
